

Accessories

bundle **Tailpiece +** **SONOPHIL** *premium*

This tailpiece together with my premium tailpiece wire improve the function and sound of my strings on your bass and increase their response and power. The sound definition gets better even under difficult acoustical conditions.

bundle **€240-275**

tailpiece (340 or
350mm, 4 or 5 stringer,
350-440gr) or custom
made

Endpin

€ about 200

complete set*

*rod (long, middle,
short) + socket +
transport rod

Thanks to its special design, material and the form-locking contact between rod and socket my endpin system is able to transmit the vibrations better than customary systems. If used with my tailpiece system it is the dot-of-the-i regarding response, definition, power.
