

< American Vintage '58 Precision Bass®

Description

For the bassist who craves pure vintage Fender style, the American Vintage series presents original-era model year basses built with meticulous attention to accurate details, bringing Fender history and heritage to authentic and exciting new life.

Original-era rock 'n' roll was in full swing in 1958, and the Precision Bass was right there with it, already the must-have instrument underpinning more and more music. Built using original tooling and based on actual 1958 models, the U.S.-made American Vintage '58 Precision Bass is a must-have for bassists who appreciate its place in history, a milestone year when the bass that started it all first appeared in classic Three-color Sunburst.
