

[illegible]

Ampeg considers guitar and amplifier accessories to be an important segment of their total product line. All accessories are manufactured or selected for distribution with the same attention to high quality that established Ampeg as a leader in amplifiers, sound reinforcement, and musical instruments. That's why the musician can buy Ampeg accessories with confidence, and all merchandise is guaranteed to be as represented and to be free from defects in materials and workmanship.

The Ampeg products described in this catalog offer a wide selection of accessories and parts to maintain, simplify, and enhance instruments and amplifiers, as well as playing techniques.

Phazzer

Sound Source Rotater

Phazzer Sound Source Rotater

The Ampeg Phazzer provides a sound of unique depth and smoothness and can be operated with either a 9 volt battery or a 9 volt AC adapter for added performance and dependability. The Phazzer's solid state circuitry can be used in conjunction with any instrument (guitar, organ, electric piano, etc.) and is compatible with solid state or tube amplifiers.

Electrical Specifications:

Input Impedance:

100K ohms

Output Impedance:

50K ohms

Effect Bandwidth:

75 to 2500 Hertz

Input Overload Voltage:

1 volt

Speed Adjustment Range:

0.14 - 8.3 Hertz

Notch Depth at 1K Hz:

20 dB

Power Supply Requirements:

15 milliamps at 9 volts

Recommended Battery Change Interval:

30 hours

Operating Instructions:

Input Jack:

The Phazzer is internally switched "on" whenever a guitar cable is plugged into the input jack. *For maximum battery life, be sure to unplug all cables when the unit is not in use.*

Footswitch:

The footswitch turns the signal circuitry on and off.

Control Knob:

The control knob sets the *speed* of the automatic Phazzer effect.

Mini-Jack:

The mini-jack accepts a 9 volt AC adapter, such as the Magnavox 1A9179, and allows the Phazzer to be used directly from a normal AC power source.

Battery:

A standard 9 volt battery is provided within the Phazzer. To replace the battery, remove the two screws from each side of the case and separate the two metal enclosures.

Internal Adjustment:

The Phazzer has been preadjusted at the factory for optimum balance between depth and smoothness. This control should not require further adjustment. However, the small white serrated knob on the internal control adjusts the effect depth if modification is desired. *Battery strength affects the adjustment of this control.*

Order by model #8830.
\$99.50 each.

Master Volume Control A/B Footswitch

Master Volume Control A/B Footswitch

Master Volume Control

With the Ampeg Master Volume Control, the player can obtain higher levels of distortion with his Ampeg amplifier without annoying hum or increased noise at reduced volume levels. As a supplement to the controls on the amplifier, the Master Volume Control is particularly useful for studio or recording work, and improves signal to noise ratio in specific applications when used correctly.

The Master Volume Control is available in two models: one designed only for use with Ampeg's tube circuitry amplifiers (Model #8812) and one for use only with Ampeg's solid state amplifiers (Model #8819). The solid state version of the Master Volume Control can also be used between two SR6 Sound Reinforcement System consoles to control the volume of the overall system.

Specifications:

Master volume control taper provides up to 20 dB of attenuation at mid-position.

18" shielded flexible cable with phone plug.

A body manufactured from rugged, high impact molded plastic, with chrome plated steel overlay, and non-skid rubber base. Easily read position markers on volume control.

Operation:

Plug Master Volume Control into one of the extension amplifier jacks on rear of amplifier. *Note: Only jacks marked Ext. Amp. are to be used for Master Volume Control.*

After Master Volume Control is plugged in the Ext. Amp. jack, set amplifier for normal playing with Master Volume Control at mid-position for a clean or normal sound.

For a low level distorted sound, turn Master Volume Control to zero, turn input volume to maximum, then turn the Master Volume Control to a suitable level (which will be distorted). The amount of distortion desired can be controlled by readjusting the input volume control counter-clockwise for less distortion.

A/B Footswitch

The A/B Footswitch can be used with any amplifier and allows the player to conveniently switch the signal from his instrument to two locations without changing the instrument cables.

The 10-foot cable on the A/B Footswitch enables the player to pre-set individual amplifier channel controls, or individual amplifiers, and switch from one channel or amplifier to the other quickly and easily during performance with only a touch of his foot.

Note: This device is designed for signal switching and should not be used to switch amplifier output from one loudspeaker cabinet to another.

The design of the footswitch shunts the unused signal path to avoid objectionable noise.

Specifications:

10 ft. flexible shielded cable with molded Y-connector and molded phone plugs.

Standard 1/4" phone input jack.

High impact molded plastic body with chrome plated steel overlay and non-skid rubber base.

Operation:

Plug an instrument into the input jack and the two phone plugs into the desired channels or amplifiers.

Specify model numbers:

Master Volume Control — Solid state Model #8812, \$18.00 each.

Master Volume Control — Tube circuitry Model #8819, \$18.00 each.

A/B Footswitch #8820, \$30.50 each.

Ampeg Amplifier Accessories

Speaker Y-Adapter

Accepts two standard phone jacks for connecting two speaker cabinets in parallel. Handles up to 300 watts power output. Heavy duty cable is 12" long with a right angle molded phone plug for connection with amplifier.

8805 — Speaker Y-Adapter . . \$15.00

Single Foot Switch

The 10-foot cable on the foot switch provides convenient reverb switching on any amplifier.

8809 — FS-2 Foot switch . . . \$14.50

Double Foot Switch

This double foot switch with a 10-foot cable provides easy activation of both the tremolo and reverb on any amplifier.

8808 — FS1-W Foot switch . . \$15.00

Extension Speaker Cable with Adapter

A 15-foot cable, capable of handling 300 watts, for connecting an extension speaker. Cable has standard right angle molded phone plug, and a four pin cannon connector. Special adapter is included to convert the cannon to a standard phone plug.

8807 \$18.50

Extension Speaker Cable

Same as the model 8807, without cannon connector adapter.

8806 \$11.00

Cable Adapter

Special adapter converts four pin cannon to standard phone plug.

8804 \$8.00

Amplifier Dolly

Specify amplifier model.

S1 \$30.00

Ampeg Guitar Accessories

Ampeg Elastic Capos

Rugged elastic capos adjust to fit any guitar neck. Available in assorted colors.

8550 — 6 string guitar	\$1.25
8551 — 12 string guitar	 1.75
8552 — 12 string guitar, deluxe	2.50

Hamilton Screw Action Capo

Practically indestructible, the thumb screw provides easy method for stopping strings. Stop bar encased in clear plastic tubing, heavy felt pad on clamp protects instrument neck. Completely chrome plated.

KB-19 — Guitar Capo	\$2.00
---------------------	-------------

Hamilton Lever Action Capo

Spring-loaded lever makes rapid changes fast and easy. Stop bar encased in clear plastic tubing, heavy felt pad on clamp protects neck of instrument. Completely chrome plated.

KB-19A — Guitar Capo	\$2.25
----------------------	-------------

Hamilton Banjo/Ukelele Capo

Identical in design to KB-19A, to fit a tenor or 5-string banjo or ukelele neck.

KB-20A — Banjo Capo	\$2.25
---------------------	-------------

Woven Guitar Straps

Woven in distinctive patterns, these multi-colored straps are as rugged and durable as they are beautiful. Available in 2" and 3" widths. Brass buckles. Assorted colors and designs.

8510 — 2" strap	\$5.25
8511 — 3" strap	 6.75

Leather Guitar Straps

These genuine top grain cowhide straps are rugged, yet soft and pliable. Embossed styles have rich, contemporary design. All styles fully adjustable, can be used for both electric and acoustic guitars.

8509 — 2½" Leather Strap (plain)	\$12.00
8508 — 2½" Leather Strap (embossed)	 13.50
8507 — 3½" Leather Strap (plain)	 15.50
8506 — 3½" Leather Strap (embossed)	 16.50

Ampeg Guitar Accessories

Guitar Picks

These evenly beveled, highly polished picks are made of Viscoloid. Specify type and gauge when ordering.

Standard

	Gross
8520T — Thin	\$10.00
8520M — Medium	11.00
8520H — Heavy	13.75

8522M — Medium	10.50
8522H — Heavy	12.25

Pic Pak

Convenient, plastic dispenser, about the size of a quarter, holds 12 thin, 8 medium or 6 heavy picks.

8502	\$1.25 each 15.00 dozen
------	----------------------------

Astro String Pull Pin Crank

This patented tool allows fast removal of bridge pins without scratching the bridge, and quickly winds string around tuning peg. Instructions included.

8501	\$1.75
------	--------

Guitar Polish

Clean, wax and polish in one easy step. Provides high lustre and added protection to any guitar finish.

8500 — 4 oz. plastic squeeze bottle	\$1.50
per dozen in display carton	18.00

Guitar Cables

8813 — 10 foot straight cable with molded ends	\$3.00
8814 — 20 foot coil cable with molded ends	5.00
8815 — 20 foot coil cable with metal ends	5.75
8816 — 25 foot rubber coil cable with metal ends	7.95
8818 — 18" shortie cable with molded ends	1.95

Grover Machine Heads

These are the finest machines available. The 14:1 gear ratio provides micro-tuning and positive, non-slip action. Sealed lubrication for lifetime wear. Includes bushings and screws.

8515C — Chrome plated set of 6	\$37.50
8515G — 22K gold plated set of 6	42.50

Ampeg Guitar Accessories

Hamilton Guitar Stand

Sturdy, yet budget priced, this stand folds easily, compactly. Supporting arms covered with white vinyl. Entire stand chrome plated.

KB-31 — Stand\$10.75

Hamilton Protective Guitar Stand

Designed for solid body guitars. Holds largest size guitars easily, safely. Engineered for smooth, easy folding. White vinyl protective covering on supporting arms. Entire stand chrome plated.

KB-35 — Stand\$11.85

Hamilton Protective Guitar Stand

Solidly built and generously proportioned to hold the largest guitars. Precision tooled for smooth, easy folding. White vinyl protective covering on supporting arms. Entire guitar stand chrome plated.

KB-33 — Stand\$12.00
