

AMPEG ELECTRIC GUITARS

Little Stud GEB-101

Low distortion pickups make the Little Stud a big sounding bass. Fitted with brushed aluminum controls and chrome plated machine heads. The neck has a maple fingerboard and bound, inlaid headpiece.

Big Stud GEB-750

The same electronics as the Little Stud, but with a different body style and rosewood fingerboard.

Stud GET-100 and GE-100

Count on the Stud to deliver a great sound. High output humbucking pickups offer flexibility of tone and controlled sustain. Brushed aluminum controls, vibrato tailpiece, and individual chrome plated machine heads. The neck has a bound, inlaid, rosewood fingerboard and a bound, inlaid headpiece. GE-100 does not have vibrato tailpiece.

Heavy Stud GE-150 and GEH-150

High output pickups give the Heavy Stud a hard sound that will put bite in your music. Fitted with brushed aluminum controls and individual chrome plated machine heads. The neck has a maple fingerboard and a bound, inlaid headpiece. GEH-150 equipped with humbucking pickups.

Super Stud GE-500

Put more power in your playing with Super Stud. Twin humbucking pickups mounted with the emphasis on midrange, giving balanced tone and presence. The Super Stud looks as beautiful as it sounds, with brushed gold controls, gold plated Grover imperial 500 machine heads, bound, pearl inlaid fingerboard and vibrato tailpiece.

Little Stud (Bass) GEB-101

Big Stud (Bass) GEB-750

Stud GET-100

Heavy Stud GE-150

Super Stud GE-500

Necks are slim, fast action type for easy playing. Pre-adjusted at the factory for string heights as low as $\frac{1}{32}$ "

Frets are finest quality German nickel silver.

Pickups are high output with low hum. Spring mounted for easy adjustment.

Bridges are adjustable to all tastes and playing styles.

Wiring is triple shielded for safety and prevention of electrical interference.

Bodies are wood of the highest density available to assure maximum sustain. All models are available in grained cedar, grained cherry, or deep molten black (cedar finish has matching maple fingerboard in place of rosewood).
