

Colonel Marsee's Bourbon Barrel Rosin

Hello and Thank you for supporting my small business. My name is Greg Marsee and I'm the owner/luthier of Kentucky Small Batch Strings. I started manufacturing my own brand of rosin during the Covid shutdown to better understand how it was made so that I could educate my students. After tinkering with the formula and experimenting with distillation practices used in the Kentucky bourbon industry, I have found 2 recipes I have settled on. The light rosin is designed more for violinist with extremely sensitive instruments while the dark rosin is crafted with the "heavier handed" instruments such as violas and cellos in mind. I hope you enjoy using this product. If you wouldn't mind, please hashtag our brand using [#colonelmarseesrosin](#) and [#ksbstrings](#) in your social media.

Thank you again for
your purchase!

Greg Marsee
