

Genesis G3SH Guitar

The latest addition to the Genesis line is the G3SH, semi hollow guitar. Hand-carved inside and out, the highly figured maple top and cedar body produce fat, warm tone with singing sustain. 25" scale, 22 fret cedar set-in neck. Available with quilted or flamed maple top, soapbar or full-size humbucking pickups, and a wide selection of brilliant finishes.

Nothing Else Sounds
Like A Genesis, Plays
Like A Genesis Or Is
Made Like A Genesis.

Modulus Guitars 8 Digital Drive, Suite 101 Novato CA 94949 415.884.2300

At Modulus Guitars, located half an hour North of the Golden Gate Bridge in the San Francisco Bay Area, our team of dedicated builders hand-crafts Genesis guitars and basses. No computer-controlled machines, just decades of skill and pride, watched over by the toughest quality standards in the industry.

Genesis One

Genesis One 3-Tone Vintage

Genesis® technology allows Modulus to free the neck wood to do what it does best-Resonate! The heart of the Genesis neck concept is the ultra-rigid carbon fiber spine. This spine runs from the tip of the headstock to beyond the highest fret and carries all of the string tension, keeping the neck straight while adding crisp attack and long sustain. Soft tone woods add warmth and depth. Make no mistake. This is new technology, not “graphite reinforcement.”

Genesis Two

Genesis Two BlueStone

Genesis One and Two guitars are modern expressions of a timeless design. Available with 22 fret, 25.5" scale carbon fiber/alder, carbon fiber/cedar or carbon fiber/figured maple bolt-on necks. Granadillo or figured maple compound radius fingerboards. Alder body (Genesis One) or figured maple over alder (Genesis Two). 3 x single coils, 2 x humbucker and humbucker/single/single pickup configuration options. In tremolo and non-tremolo versions, both with locking tuners. Vintage package with Virtual Vintage pickups, big position dots, smaller radius fingerboard and skinny frets optional. Master volume, master tone and 5-way selector switch. Solid, Burst, Metallic and Stone color choices.

Genesis Three & Three Carved Top

Genesis Three Honey

The warmth and sustain of Genesis technology applied to classic set-neck design. 25" scale, 22 fret carbon fiber/cedar set-in neck. Granadillo or chechen compound radius fingerboards. Cedar body (G3) or hand-carved figured maple over cedar (G3CT) body. Choice of DiMarzio humbucking soapbar or full-size humbucking pickups. Master volume, master tone, passive Fat Control (blends from single coil to full humbucking and anywhere in between). 3-position selector switch. Wraparound fully adjustable bridge and Straight Pull™ tuners. Semi-hollow option. Many Solid, Transparent, Metallic, Burst and Stone finishes available.

Genesis Three Carved Top Amber

Unlike Any Other Guitar You've Ever Played

Genesis neck technology marries the best of wood and carbon fiber for a unique playing experience. Modulus has more experience building and designing carbon fiber guitar and bass necks than any one in the music business. Check out what happens when the stability and brilliant sustain of graphite joins with the warm, smooth sound of soft tone woods.

[Modulus is proud to be an FSC certified manufacturer, using woods grown, harvested and replanted according to Forestry Stewardship Council guidelines](#)
