

P.O. BOX 7534, VAN NUYS, CA 91409 USA 619-347-7099

Thank you for your inquiry about my products. WW AMPS are uniquely and personally handcrafted to provide extremely portable and powerful amplifier packages. Simplicity of controls affords quick system tuning for any playing situation. Ultimate reliability is achieved by hand selection, winding and construction of all critical components.

At present there are three models of amplifiers (MI 100-8, MI 400-8 and MI 700-8) with four signal processor options. All models feature a dual voltage switch for International operation. Below is a table of functional capability for each signal processor.

	1-Channel	2-Channel	Auxiliary Power (2-Channel)	4-Channel
JACKS: (1/4 in. phone)				
Inputs	2	2/Ch	1/Ch & 5 Pin	1/Ch
Line Out	1	1/Ch	1/Ch	1/Ch & Mix
Line In	1	1	1	1
SWITCHES:				
Bass & Treble (ea.)	1	1/Ch	1/Ch	None
Input Mix or Boost	1	None	None	None
Phase In or Out	None	1	1	None
Mono or Stereo	None	1	1	None
Channel Select	None	1	1	None
Channel In or Out	None	None	None	1/Ch
CONTROLS:				
Bass, Midrange, Treble (ea.)	1	1/Ch	1/Ch	1/Ch
Preamp Volume	2	1/Ch	1/Ch	1/Ch
Master Volume	1	1	1	1

All WW AMPS are guaranteed parts and labor for one year minimum including return UPS postage (one way only). Severe physical abuse or tampering may void the warranty. Same day repair service will be provided whenever possible. RESTRICTION: NEVER CONNECT SPEAKERS TOTALING LESS THAN 4 OHMS.

Due to demand and limited production, I am occasionally back ordered and recommend placing orders by phone. Also a 50% deposit (totally refundable upon request) is required at the time of ordering with the balance due prior to shipment. The deposit insures you a reservation if back ordered as well as a quoted price and delivery date.
